今後Eclipse with ADT
はどうなるか

The official Android IDE

The screenshot shows the 'Tools' section of the Android Developer website. The main heading is 'The official Android IDE'. Below this, there is a large image of a laptop displaying the Android Studio IDE interface, which includes a code editor, a project browser, and a virtual device emulator showing a login screen. To the left of the image is the Android Studio logo and a list of links: 'Download Android Studio for Mac', 'System Requirements', 'Other Download Options', 'Migrating to Android Studio', and 'Take a Survey'. The top navigation bar includes 'Developers', 'Design', 'Develop', and 'Distribute'. The left sidebar contains a 'Download' menu with sub-items like 'Installing the SDK' and 'Adding SDK Packages', and a list of other resources like 'Android Studio', 'Workflow', 'Tools Help', etc.

Developers Design **Develop** Distribute

Training API Guides Reference **Tools** Google Services Samples

お勧めショートカット(Linux)

- Complete Current Statement (Ctrl-Shift-Enter)
- Show Intention Actions(Alt-Enter)
- Start New Line(Shift-Enter)
- Extract Variable...(Ctrl-Alt-V)
- Extract Field...(Ctrl-Alt-F)
- Rename...(Shift-F6)
- File Structure(Ctrl-F12)
- Navigate Class...(Ctrl-N)
- Navigate File...(Ctrl-Shift-N)
- Navigate Previous Method(Alt-↑)
- Navigate Next Method(Alt-↓)
- Select Word at Caret(Ctrl-W)
- Duplicate Line or Block(Ctrl-D)
- Delete Line(Ctrl-Y)

Keymap: Default for XWin の場合

お勧めショートカット (Mac)

- Complete Current Statement (↑⌘↵)
- Show Intention Actions(⌘↵)
- Start New Line(↑↵)
- Extract Variable...(⌘⌘V)
- Extract Field...(⌘⌘F)
- Rename...(↑F6)
- File Structure(⌘F12)
- Navigate Class...(⌘O)
- Navigate File...(↑⌘O)
- Navigate Previous Method(^↑)
- Navigate Next Method(^↓)
- Select Word at Caret(⌘↑)
- Duplicate Line or Block(⌘D)
- Delete Line(⌘⌘)

Keymap: Mac OS X 10.5+ の場合

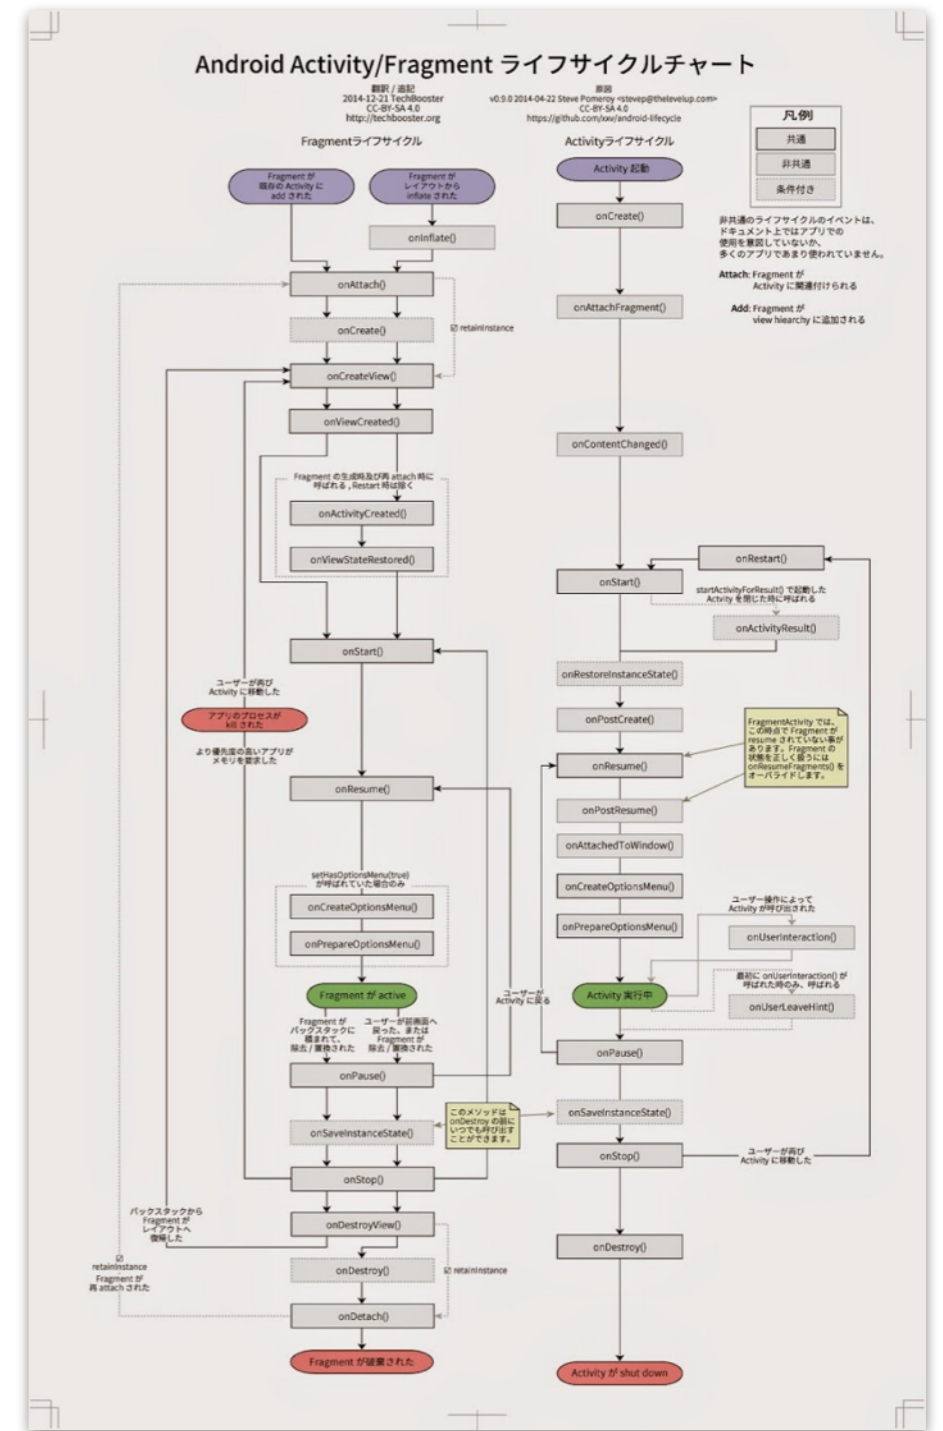

お勧めショートカット (Windows)

- Complete Current Statement (Ctrl-Shift-Enter)
- Show Intention Actions(Alt-Enter)
- Start New Line(Shift-Enter)
- Extract Variable...(Ctrl-Alt-V)
- Extract Field...(Ctrl-Alt-F)
- Rename...(Shift-F6)
- File Structure(Ctrl-F12)
- Navigate Class...(Ctrl-N)
- Navigate File...(Ctrl-Shift-N)
- Navigate Previous Method(Alt- ↑)
- Navigate Next Method(Alt- 下)
- Select Word at Caret(Ctrl-W)
- Duplicate Line or Block(Ctrl-D)
- Delete Line(Ctrl-Y)

Keymap: Default の場合
